# How can you become an art teacher?

**Art teachers have to go to college for four years because you have to get an art teacher certificate. They have to take a lot of classes and take a lot of tests to become an art teacher.**

Do art teachers have to know what projects to do?

**Yes, art teachers have to know what projects to do so they can teach kids what to draw. The art teachers have to plan what they are going to do. Art teachers have to learn how to do explain projects to kids of all ages.**

# How do art teachers help kids express themselves?

**Art teachers give direction about what to draw. Then art teachers encourage kids to use creativity to make the drawing. Kids could pick colors to color the drawing to make it their own. Art teachers don't tell them what exactly to do.**

# Sources Q and A

Websites: Job education for art teachers.

Book: Art teachers by: Tami Deedrick.

## **Expert:**

Mrs. Peterson (my art teacher)

# About the Author
