# Q: Is this a good or a service?

What is a game system? A game system is a good because a good is a object that you can touch and hold. A good is something you can bring home and use. A service is a person that does something to you like T.V. service. If you don't have a T.V. service then you don't have as much channels or no channels if you don't have a antenna.
