- What is the Nexus 7?
- When was the Nexus 7 made?
- Is the Nexus 7 a good or a service?
- Why do schools have the Nexus 7?

# What is the Nexus 7?

The Nexus 7 is a tablet. There are tons of tablets but this is just one of them.

# When was the Nexus 7 made?

The Nexus 7 was made on June 27, 2012. The company that invented the Nexus 7 is Google and Asus. They cost about \$200. Some school even use them.

And

# Is the Nexus 7 a good or service?

It is a good because you can hold it. A water bottle is also a good. A doctor does a service. A service is something that a person does something for you. A dentist also does a service.

Goods	Services
Water bottle backpack note book paper pencils	doctor dentist teacher lawyer

# Why does our school use the Nexus 7?

First, 50 teachers and **district staff** meet to look at what tablets were available at that time. First they looked at how each one cost and how each **functioned**. So at the end they chose the Nexus 7.

How would you feel if you did not have our tablets.
